CLUBLAND CUSTOM THREATENED.

Ur. Fletcher Little is to move a resolution at the annual meeting of the National Liberal Club, prohibiting members from treating each other to drink. The proposal is likely to be carried by a small majority. " Clubland has been agitated 518 over the subject for some time, and the tin China. view in clubs generally is that such a resolution would be not only beneficial to the members, but to the clubs themselves. As one man put it to a " Stan-

dard " representative-" Although 'comparatively few would favour restriction by rule, one cannot but feel that the practice of returning a friendly drink entails serious consequences, apart altogether from the expense. With a single friend an interchange of hospitality is an affair feetly legitimate in themselves, but the of courtesy, but when one arrives at purse-strings of the British and French groups of seven or eight people, this, in the ordinary way, means as many drinks, which is neither good for the brain nor as to whether the "squeeze" may not 664 | the pocket." Mr. Theodore Taylor, M.P., declared that he had heard on the highest authority 654 within the last few days that the provinial Governments of China were relaxing their regulations as to the admission of Indian opium. "It is not in the least un unfair supposition," he said, "that the delay in the arrangement of the loan to China has been largely caused by the fact that there are large financial interests lentified with the opium trade who have been saying, 'If you want this money that is to pay off your debts to Russia, and enable the new Republic to be found. ed, you will have to make way for the opium traffic.

Dr. Eugene Chen, of the Chinese Legation, urged that Great Britain should release Ching from any treaty which the Asia Minor, but many thousands remain merchants claimed to possess. - Regret is expressed that while the Governments of Europe have sufficient confidence in the Republic to recommend the loan, yet the Republic has, so far, not been officially recognised. Some papers profess to "see trouble ever the business, and foretell further disorders

The "Financial Times" says :-- " It would not be unfair to say that there i some evidence that this official recognition, so important to the firm establishment of a new regime, has been deliberately withheld with the object of "squeezing " China both diplomatically and financially. Russia wishes to ostablish her control over Mongolia and the British Government has its own ends"to attain in the matter of the independence Tibet. Both these objects may be perinvestors are not the proper weapon to

be employed to attain them. "The only possible question would be have been carried a little too far, for the Chinese, while having an exceptionally good reputation for holding to their bargains, certainly do not lack shrewdness in commercial and financial matters. A natural result of the disclosure of the terms has been to cause the older Chinese issues to be marked down to a lower level, and Foreign Government bonds A resolution condemning the opium have, in fact, suffered to some extent all

Sir Edwin Pears describes the recent war as a specially cruel one for the Turks. While it is impossible to state with accuracy the number of Turkish soldiers killed in battle, or who died from wounds, sickness, or starvation, yet that number. can hardly be less than 200,000. He estimates that 50,000 perished in the campaign around Kirk Kilisse and Lule Burgas, and another 30,000 at Chatalja. At, Monastir the Servians, accounted for 30,000, and a similar number fell at Salonika. At and around Adrianopla 20,000 met their deaths. Then there were several smaller engagements which the Turks lost heavily so that the estimate of 200,000 is probably under than

over the mark. The prisoners taken by the Allies can not be less than 150,000. Of these, the Bulgarians took 54,000; the Greeks 35,000; the Bulgarians and Greeks togother, 40,000; and the Servious and Montenegrins, 20,000. At least 150,000 women, children, and old men fled from their homes in Macedonia and Thrace. Thousands of these came to Constantinople with their ex-certs, and were at once shipped across the Bosphorus into in the capital, or in the neighbouring towns and villages; some cucamped in their carts, others in ruined buildings or

Brain Fag, Nervous Exhaustion-

Just a change of opinion was enough to give Mr. W. King his present prosperity, for he realised in the nick of time that his way was not curing his brain fag and nervous exhaustion, so he tried the Phosferine way. Mr. King's method was to ignore his despondency and feeling of collapse, and persuade himself there was nothing unusual in the painful fatigue the lightest effort to work cost him, until, as he steadily get worse, he resolved to drop his own opinion and see what Phosferine could do. The result was so astonishingly beneficial, even after a few doses, that the brain fag and nervous exhaustion ceased entirely, enabling him to do more work than before and yet not feel the strain. This remarkable 'advantage is seen in the extraordinary energy and vigour of Mr. King's public speaking, and so amazingly have his prospects improved since his speedy recovery, that he declares he had to come forward with the evidence of the magnificent benefit he derived from Phosferine.

Quite Gone—Never Return.

Mr. W. J. King, School House, Trumpington Road, Forest Gate, E., writes:-"I am writing to add my name to the list of those people who have found Phosferine to be the Greatest of all Tonics. Some time back I was very much run down through overstrain brought on by incessant bodily exercise and mental application. The usual tendency of mankind is to give up some of their work, have a rest, and at the same time take medicine, so I endeavoured to keep going on without seeking advice, but as I was getting worse I found that policy would not do. Having heard many friends speak about Phosferine, and one in particular offering me some. I decided to give it a trial. Purchasing a 2/6 bottle, I began to doctor myself. The result not only astonished me, but others also noticed how much better I was, even although I had only taken a few doses. I found I could do the same amount of work easier, and at present am able to do more than befere and yet not feel the strain. I have a good deal of public speaking, and I find an occasional dose of Phosferine is a great benefit."-May 28, 1912.

FREIGHT CIRCULAIL blessrs. Lamke and Rogge in their weekly freight circular dated Hongkong, May 24, report:- "-

Chartering operations during the past fortnight have once more been on a moderate scale and a somewhat easier feeling is pervading the freight market. The amount of available tonnage however is anything but in excess of requirements and it is quite certain that under the in suence of a renewed and looked for demand from the Southern rice ports, rates willingain show an upward tendency.

The North reports that freights on the const have also eased up a little, and the demand for tonnage having subsided somewhat it is expected that rates will rule easier in the near future.

Saigon/Hongkong :-- Very little has been done in the way of chartering in the absence of any brisk demand, and rates after having worked their way up from 175 cents to 24 cents, have again declined to 23 cents per picul. WHAT IS A PICUL? Interesting Question for Appeal Court

The Chief Justice, Sir William Rece Davies, K.C., and the Puisne Judge, Mr. Justice J. H.
